

Picote Contractor Days 2026

HANDS-ON DEMO DAYS

PICOTE TRAINING CENTER
PORVOO, FINLAND

March 25 - 26 | June 17 - 18 | September 23 - 24 | December 9 - 10

MaxiPower+Tools

Picote Contractor Days

These sessions include demonstrations, discussions and site visits - tailored to the needs of Picote contractors.

Discover practical applications and gain insights that help you complete your projects more efficiently.

Clean and descale pipes, remove roots, grease, concrete and collapsed liners, install connection sleeves, apply Picote Brush Coating™ and improve your CIPP lining.

Picote Contractor Days

HANDS-ON demo days

March 25 - 26 | June 17 - 18 | Sept 23 - 24. | Dec 9 - 10

PICOTE TRAINING CENTER
PORVOO, FINLAND

What You Can Expect

- Two days of intensive, hands-on experience together with international Picote users
- Practical demonstrations of Picote technologies and methods
- Optional site visit to an active jobsite (subject to availability)
- Expert discussions on projects, market developments and technological innovations
- Guided tour of Picote's production facilities in Porvoo
- Genuine Finnish hospitality throughout the event
- **No participation fees**

Topics Based on Customer Requests

- **Descaling:** the most common challenges and best tools for the job
- **Reinstating lateral connections** from the main line using the Mini Multi-Cutter (powered by BZ-Bots) or from the branch line using Twister Tools
- **Options for partial rehabilitation:** the Connection Collar & Bendy Packer System – How new products are changing installation processes
- **CIPP installation methods for in-house rehabilitation:** Inversion with the Picote Cannon & Inversion Drum, plus branch lining techniques
- **Picote Brush Coating™ – benefits and application choices:** Brush Coating and Spray Coating
- **Typical liner defects:** Comparing Maxi Power+ and Maxi Miller for efficient removal and correction
